New thinking in ICT storage

## LapCabby Vertical Range 10V / 15V / 16V / 20V

Though in the last few years technology has come on leaps and bounds, we still can't live without our trusty laptops. Laptops are an office and classroom staple – and they need a place to stay.

Every LapCabby offers innovative, programmable charging schedules alongside a whole host of other features such as extra durable construction, lockable doors and cushioning, protective grips. They come in a range of sizes and colours on sliding shelves.

LapCabbys are an innovative and efficient way to store and charge laptops while keeping cables tidy.

### Vertical Range Highlights

- ✔ Comprehensive safety testing – to the highest worldwide standards
- ✔ Stores and charges 10 / 15 / 16 / 20 laptops up to 19"
- ✔ Sliding shelves for vertical storage
- ✔ Fully assembled for simple and rapid setup
- ✔ Efficient and silent air circulation
- ✔ Fitted with Power 7 Energy Management System
- ✔ Innovative cable management
- ✔ Small footprint (LapCabby 10V)
- ✔ Robust construction
- ✔ Competitively priced with Lifetime Warranty

### Reasons to Love LapCabby

**No matter the device** – We have a product to sync, store and transport them. Laptops, Chromebooks, Tablets, BYOD, 1:1, 2:1, 3:1 - we have you covered!

**What you see is what you get** – Our feature rich products come fully assembled and quite literally ready to roll..

**Built from scratch** – All our components are designed and manufactured in-house. We don't do off the shelf!

**Lifetime warranty** – On every LapCabby purchase - we know our design and build quality is unsurpassed!

**Rapid delivery times** – Our global network of partners spans 44 countries and all major continents - meaning no matter where you are we can get your LapCabby to you. Fast.

**Friendly service** – Just because we operate across the globe doesn't mean we have compromised our customer centric ethos.

LapCabby 20V

1. Individual sliding shelves for easy access (housing 4-5 per shelf)

2. Individual cable pockets for each laptop to store AC adaptor and excess cables

3. Cables kept secure with specially designed and moulded cable clips in 3 different locations

4. Specially moulded soft rubber mats to protect devices

5. Ergonomic coloured ABS handles make LapCabby's easy to get from place to place

6. Extremely durable wheels - ensuring the bespoke fixing solutions can handle tough terrain for the entire lifetime of the unit, the rubber tyres absorb noise and bumps delivering quiet transit while protecting devices. Rather than a castor plate screwed on to the base of the unit we weld the fixing into the frame and on to a specially designed thick metal plate

7. Power 7 energy management system allows you to programme up to 21 different automatic charging schedules, 3 for each day of the week

8. Locking mechanisms are on top to prevent broken keys, with a dual point locking system at the top and bottom of the door offering added security

9. Cable clip portholes that feed cables from the back power compartment to the front of the unit, preventing cables from being removed from the front

10. Separate power compartment opened with a concealed handle, allowing easy access to organise cables

11. Fully welded mesh base and side vents allow constant air circulation, so no fan is required and devices charge in silence

12. Inset, coloured door handles prevent protruding parts

13. IEC power cables plug into the mains and are designed to snap out if pulled away from the wall, preventing damage to the unit or any nasty trips

14. Fully welded steel frame, robust rubber wheels, and a welded binding plate offer ultimate strength and ensure wheels won't come loose or buckle

15. Large L-shaped doors and sliding shelves for easy access to laptops and storage compartments

16. Rounded corner extrusions and rubber corner bumpers protect the unit, walls and devices when you're on the move

17. When unit is switched on, power strips boot up sequentially (1 second apart) to avoid a surge on the power supply

18. The LapCabby 15V utilises space to store 15 laptops and one projector or printer on sliding shelves.

<b>Materials</b>	Heavy duty steel frame with strong MFC cladding
<b>Finishes / colours</b>	LapCabby loves a splash of colour! Trolleys can be personalised to match school colours, differentiate trolleys for different subjects or grades or just for fun! Classrooms are colourful - why put up with a black or grey square box? Blue, orange, lime, purple and charcoal!
<b>Safety</b>	All products are tested to the highest standard worldwide. USA: UL 60950-1/R:2011-12. Canada: CAN/CSA C22.2 No. 60950-1/A1:2011-12. Europe: EN 60950-1/A12:2011. Safety testing is a high priority to LapCabby. We don't release any products unless the trolley has been completely certified including electrics, materials, construction and components. Leading safety testing house we test the normal operating conditions of the product but also for faults, misuse, temperature, fire risk, electric shock and injury
<b>Additional safety features</b>	A heat sensor inside the Power7 automatically switches the unit off when the ambient temperature within a LapCabby reaches an unsafe level. An over heating device can be a fire risk so we have installed an additional heat sensor in every trolley. With the side vents and the weld mesh base our trolleys are kept cool around the clock
<b>FREE shipping</b>	All our prices INCLUDE shipping! (For UK and US only)
<b>Fully assembled</b>	Our products are delivered fully assembled. Or as we say ready to roll
<b>Additional extras</b>	No hidden extras, what you see is exactly what you get, everything you need is included! Power7 timer and energy management system, cable management, robust rubber wheels. We make sure we include everything you need to have a safe, efficient and bright trolley in the classroom, including rubber protective mats for the devices to sit on and cable management
<b>Future proof</b>	Yes, we have trolleys that accommodate laptops, Chromebooks and tablets at the same time and charge all devices simultaneously. It's handy to have a trolley that charges all sorts of devices all at the same time. The teachers laptop can be charged in the same trolley along side the students Chromebooks or tablets. Whether classroom devices get bigger or smaller, they'll fit in a LapCabby trolley for many years to come. Technology Cambrixion future proofed
<b>Cable management &amp; ease of wiring</b>	Separate compartment safely stores cables, cable management and electrics away. Once unlocked by hidden lever, full access to the cables make it quick and easy to wire up. Having complete access to the cable management reduces the time it takes to set the trolley up and means you don't have to squeeze your hands into tight spaces. If a charger needs to be removed or you need to access the electrical compartment you don't want to have to unload the entire trolley. For safety reasons, a locked compartment to store the electrical components is important, plus cables can go missing if they are accessible from the front of the trolley
<b>Usable top surface</b>	Yes
<b>Simultaneous charging</b>	All our trolleys provide simultaneously charging! Additionally the Power 7 timer and energy management system has 3 programmable charging schedules per day, 7 days a week which can be programmed to work around the classroom schedule and manual charge is also available in between. (LapCabbys efficiently charges everything all at the same time. Charging electrical strips individually means the overall charging time takes 2, 3 or 4 times as long! Who has time for that?)
<b>Upgrades</b>	LapCabby Connect upgrade gives each laptop or netbook/Chromebook quick and easy WiFi access. Ready 4 Connect option gives the same benefits as the LapCabby Connect, but allows you to use your own hardware - available on all vertical models. LapCabby Up-Link upgrade comes with a WiFi access point that allows the computer trolley to be plugged into the school LAN, providing a wireless access point for the classroom. Ready 4 UpLink option provides the same benefits as the LapCabby Up-Link, but allows you to use your own hardware - not available on LapCabby 10V
<b>Testing certifications</b>	 Safety tested to the highest level worldwide
<b>Lifetime warranty</b>	Lifetime warranty on all products and components, 2 years warranty on electrics. Product support for life! LapCabby offers the best warranty on the market (with no small print to consider. We make it easy to understand and we support our end users for the life of the product!)

## About LapCabby

### Clever technology solutions that tick all the boxes.

For twenty years we've been developing innovative products that our customers love. We make portable storage trolleys and charging solutions for laptops, tablets, e-readers, Chromebooks and netbooks. They're the smart way to keep your tech safe, charged, and in one secure place.

Developed over two decades with the help of customers and technology users, we've included some really ingenious features to ensure our products do everything you need them to – and a little more besides. Our trolleys are used everywhere, from schools, libraries and museums to restaurants and even laboratories, so wherever you are our products are sure to make a difference.
