

## TabCabby Compact Range 16H / 32H / 20-32V

Smart, interactive and ever-so-portable, tablets have revolutionised the way many of us work, learn and play and the modern classroom and workplace demands simplistic storage and charging for the devices. With a TabCabby Compact you can expect all our usual clever features while saving even more space with a smaller footprint. But don't be deceived by their size; they're still designed to securely store, charge and sync from 16 to 32 tablets, with or without cases.

The TabCabby Compact range provides the same innovative features as the larger LapCabby models, squeezed into a smaller space – they can be up to half the size.

### TabCabby Compact Range Highlights

- ✔ Comprehensive safety testing – to the highest worldwide standards
- ✔ Stores and charges 16 / 20 / 32 tablets with or without protective cases
- ✔ Charge & Sync trolleys also available
- ✔ Fully assembled for simple and rapid setup
- ✔ Efficient and silent air circulation
- ✔ Fitted with Power 7 Energy Management System
- ✔ Innovative cable management
- ✔ Small footprint
- ✔ Robust construction
- ✔ Competitively priced with Lifetime Warranty

### Reasons to Love LapCabby

**No matter the device** – We have a product to sync, store and transport them. Laptops, Chromebooks, Tablets, BYOD, 1:1, 2:1, 3:1 - we have you covered!

**What you see is what you get** – Our feature rich products come fully assembled and quite literally ready to roll...

**Built from scratch** – All our components are designed and manufactured in-house. We don't do off the shelf!

**Lifetime warranty** – On every LapCabby purchase - we know our design and build quality is unsurpassed!

**Rapid delivery times** – Our global network of partners spans 44 countries and all major continents - meaning no matter where you are we can get your LapCabby to you. Fast.

**Friendly service** – Just because we operate across the globe doesn't mean we have compromised our customer centric ethos.

TabCabby 20-32V

1. Locking mechanisms are on top to prevent broken keys, with a dual point locking system at the top and bottom of the door offering added security

2. Extremely durable wheels - ensuring the bespoke fixing solutions can handle tough terrain for the entire lifetime of the unit. The rubber tyres absorb noise and bumps delivering quiet transit while protecting devices.

Rather than a castor plate screwed on to the base of the unit we welded the fixing into the frame and on to a specially designed thick metal plate

3. Inset, coloured door handles prevent protruding parts

4. IEC power cables plug into the mains and are designed to snap out if pulled away from the wall, preventing damage to the unit or any nasty trips

5. Fully welded mesh base and side vents allow constant air circulation, so no fan is required and devices charge in silence

6. Ergonomic coloured ABS handles make LapCabbys easy to get from place to place

7. Power 7 energy management system allows you to programme up to 21 different automatic charging schedules, 3 for each day of the week

8. Rounded corner extrusions and rubber corner bumpers protect the unit, walls and devices when you're on the move

9. Fully welded steel frame, robust rubber wheels, and a welded binding plate offer ultimate strength and ensure wheels won't come loose or buckle

10. When unit is switched on, power strips boot up sequentially (1 second apart) to avoid a surge on the power supply

11. Cable clip portholes gather excess cables and secure them in place. Cables are fed from the side power compartment into the front of the unit through cable clip portholes, meaning they can't be removed from the front or go missing (TabCabby 32H Compact shown in image) preventing cables from being removed from the front

12. Separate power compartment opened with a concealed handle, allowing easy access to organise cables

13. Compatible with any mobile device using chargers with standard electrical plugs, including iPads, Android tablets and e-book readers (TabCabby 20-32V shown in image)

14. TabCabby Compact Charge & Sync trolleys are also available, with a Boost+ attachment which can be removed to be used as a portable charge and sync solution allows simultaneous synchronisation of all devices whilst connected. Devices of the same type can all be synchronised in one go, saving you time when deploying apps and content. Easy to install firmware updates ensure your TabCabby can charge and sync all the latest tablets, making it future proof. iTunes and Apple configurator enables you to sync your apps, media and usable content from your office, home or classroom. Our Intelligent charging allows you to charge multiple types of devices at the same time whilst ensuring connection stops automatically for each device once fully charged

15. Large L-shaped doors and sliding shelves for easy access to tablets and storage compartments (TabCabby 20-32V shown in image)

### TabCabby 16H / 32H Compact Only

16. Individual shelf compartments accommodate two tablets side by side with or without protective cases. Or one tablet per shelf for TabCabby 16H Compact. Fixed shelves angle back slightly to allow devices to stay in place when moving the unit

### TabCabby 20-32V Only

17. Extra strong, portable Caddys manufactured from injection moulded ABS plastic

18. Caddys have adjustable dividers to accommodate 5 tablets with cases and 8 tablets without, and slot onto sliding shelves for easy access (housing 2 Caddys per shelf)

19. Cables hang above the devices, meaning they can't be removed from the front or go missing.

|  |   |
|--|---|
| <b>Materials</b>                             | Heavy duty steel frame with strong MFC cladding   |
| <b>Finishes / colours</b>                    | LapCabby loves a splash of colour! Classrooms are colourful - why put up with a black or grey square box? TabCabby Compact trolleys are available in blue   |
| <b>Safety</b>                                | All products are tested to the highest standard worldwide.<br>USA: UL 60950-1/R:2011-12.<br>Canada: CAN/CSA C22.2 No. 60950-1/A1:2011-12.<br>Europe: EN 60950-1/A12:2011.<br>Safety testing is a high priority to LapCabby. We don't release any products unless the trolley has been completely certified including electrics, materials, construction and components. Leading safety testing house we test the normal operating conditions of the product but also for faults, misuse, temperature, fire risk, electric shock and injury  |
| <b>Additional safety features</b>            | A heat sensor inside the Power7 automatically switches the unit off when the ambient temperature within a LapCabby reaches an unsafe level. An over heating device can be a fire risk so we have installed an additional heat sensor in every trolley. With the side vents and the weld mesh base our trolleys are kept cool around the clock   |
| <b>FREE shipping</b>                         | All our prices INCLUDE shipping! (For UK and US only)   |
| <b>Fully assembled</b>                       | Our products are delivered fully assembled. Or as we say ready to roll  |
| <b>Additional extras</b>                     | No hidden extras, what you see is exactly what you get, everything you need is included! Power7 timer and energy management system, cable management, robust rubber wheels. We make sure we include everything you need to have a safe, efficient and bright trolley in the classroom, including rubber protective mats for the devices to sit on and cable management  |
| <b>Future proof</b>                          | Yes, we have trolleys that accommodate laptops, Chromebooks and tablets at the same time and charge all devices simultaneously. It's handy to have a trolley that charges all sorts of devices all at the same time. The teachers laptop can be charged in the same trolley along side the students Chromebooks or tablets. Whether classroom devices get bigger or smaller, they'll fit in a LapCabby trolley for many years to come. Technology Cambrix future proofed  |
| <b>Cable management &amp; ease of wiring</b> | Separate compartment safely stores cables, cable management and electrics away. Once unlocked by hidden lever, full access to the cables make it quick and easy to wire up. Having complete access to the cable management reduces the time it takes to set the trolley up and means you don't have to squeeze your hands into tight spaces. If a charger needs to be removed or you need to access the electrical compartment you don't want to have to unload the entire trolley. For safety reasons, a locked compartment to store the electrical components is important, plus cables can go missing if they are accessible from the front of the trolley |
| <b>Usable top surface</b>                    | Yes   |
| <b>Simultaneous charging</b>                 | All our trolleys provide simultaneously charging! Additionally the Power 7 timer and energy management system has 3 programmable charging schedules per day, 7 days a week which can be programmed to work around the classroom schedule and manual charge is also available in between. (LapCabbys efficiently charges everything all at the same time. Charging electrical strips individually means the overall charging time takes 2, 3 or 4 times as long! Who has time for that?)   |
| <b>Upgrades</b>                              | LapCabby Connect upgrade gives each laptop or netbook/Chromebook quick and easy WiFi access. Ready 4 Connect option gives the same benefits as the LapCabby Connect, but allows you to use your own hardware - available on all Compact models  |
| <b>Testing certifications</b>                |  <p>Safety tested to the highest level worldwide</p>   |
| <b>Lifetime warranty</b>                     | Lifetime warranty on all products and components, 2 years warranty on electrics. Product support for life! LapCabby offers the best warranty on the market (with no small print to consider. We make it easy to understand and we support our end users for the life of the product!)   |

## About LapCabby

### Clever technology solutions that tick all the boxes.

For twenty years we've been developing innovative products that our customers love. We make portable storage trolleys and charging solutions for laptops, tablets, e-readers, Chromebooks and netbooks. They're the smart way to keep your tech safe, charged, and in one secure place.

Developed over two decades with the help of customers and technology users, we've included some really ingenious features to ensure our products do everything you need them to – and a little more besides. Our trolleys are used everywhere, from schools, libraries and museums to restaurants and even laboratories, so wherever you are our products are sure to make a difference.
