

Chromebox Mini

*An Enterprise Ready Solution
Running on Chrome.*

Small, but powerful: the smallest enterprise-ready Chromebox today, designed for the signage, POS, corporate and kiosk markets. Empower customers with ease of experience and greater control of in-store engagement.

The AOPEN Chromebox Mini is a highly reliable and powerful enterprise grade solution that operates 24/7 under tough conditions (up to 40°C). It sets itself apart from any Chromebox, being the most flexible of its kind. The small size combined with strong computing power creates the perfect solution for any commercial or corporate environment. The Chromebox Mini ensures a speedy, simple, secure and scalable solution.

Deployment and management of the devices has never been easier using Chrome Device Management. This easy and powerful tool allows users to remotely manage entire fleets of AOPEN Commercial Chrome devices.

The advantages of the Chromebox Mini:

- Tough and tamperproof design for 24/7 operability in commercial and public environments (<40°C/104°F)
- Smallest chrome form factor available in the market today, for easy integrations
- A cost-effective solution for lower TCO
- The solid-state and fanless design ensure a first-rate performance in ruggedized environment
- AC Power Auto Recovery (APAR)
- Included dual band antenna offers a wide reach
- Kiosk and POS device extensions via commercial converts
- Optional Chrome Device Management on request to save valuable time, costs on installation, programming and maintenance
